Dr. Robert Stromer’s Research

Robert Stromer is an experienced school psychologist, clinician, teacher, and researcher. Currently, as a member of the faculty of the Centre for Community Services and Development at George Brown College (Toronto, ON), he works with students studying behavioral science and its application in educational and clinical settings. He is also involved in the research and development of computer-based technologies for teaching children with autism and related disorders. Support for his research has included grants from the National Institute of Child Health and Human Development and the Organization for Autism Research. He is widely published and served on the editorial boards of The Behavior Analyst and the Journal of the Experimental Analysis of Behavior and as both a board member and associate editor for the Journal of Applied Behavior Analysis.

The following are some of his computer-related studies and writings:
