Products – DT Trainer – Reinforcers

The DT Trainer is installed with hundreds of multimedia reinforcers to motivate the student. Reinforcers include basic cause and effect, games and interactive activities, stimulating visuals, music, animations, and movie clips. The program also allows you to add your own reinforcers such as movies, games, or even web pages. For example, it is easy to add a movie of a child doing a favorite activity. This reinforcer can be very powerful for a young or low functioning individual. The reinforcement rate is adjustable to provide the appropriate level of reinforcement, and the reinforcers can be changed periodically to keep the program interesting. Many of the cause and effect reinforcers can be used to build basic mouse or touch screen skills, and there is even a reinforce-only mode for very young children or very low functioning individuals to help build basic interactions with the computer. There is an impressive set of reinforcers already in the product, and AES is expanding the set to continue providing the most powerful reinforcement system available!

"Smart" Reinforcers!

These reinforcers are configurable for each student, and save the student's progress between sessions of the reinforcer.

- SuperBlinky: The student guides "Blinky" through over 20 levels in an attempt to collect all the gold coins.
- SuperPop: The student must pop all the circles on the screen. The number and motion of the circles is increased with each level.
- SuperPong: Just like the classic arcade game! The student controls a paddle and attempts to block the ball from leaving one side of the screen. With each level completed, the speed of the game is slightly increased.

Activities – Arts and Graphics

Epicycloids, Flood Fill Coloring, Image Building (Flower Garden, Flower Bed, Outer Space, Rubber Stamp, The Desert), Paintbrush Coloring, Scribbling (B&W, Color)

Activities – Basic Cause/Effect

Animal Noises, Chase, Dancing Bees, Draw Bots, Eyes Chase Cursor, Eyes Track Cursor, Follower (I & II), Grid Block, Kaleidoscope, Liner, Lines, Mouse Music, Pops, Puff of Smoke, Quads, Space Flight, Sparkler, Triangles, UFO's, U-Weave, Weave, Zen

Activities – Intermediate Cause/Effect

Alien Invaders, Wave Play

Activities – Basic Problem Solving

Boy Doll, Girl Doll, Christmas Tree, Veggie Head

Activities – Controls

Circling Dots

Activities – Eye-Hand Coordination

Circle Pop, Crazy Dots, Crazy Stars, Super Pop, Fireworks

Activities – Games

Jigsaw Puzzles, Matching, Super Blinky, Super Pong, Whack-an-alien, Whack-a-spider

Activities – Music

Player Piano (I & II)

Non-Interactive – High Stimulation

Crystal, Electric Mandala, SpyderWyre, Tubeulent, TwiStar, Whirlwinds

Non-Interactive – Math Graphics

Kaleidoscope

Non-Interactive – Tunnels

Dot Tunnel, Web Tunnel

Non-Interactive – Miscellaneous

Dancing Trapezoids, MirroSphere

Sounds – Children's Songs

Baa Baa Black Sheep, Billy Boy, Hay Diddle Diddle, Itsy Bitsy Spider, Mary Had a Little Lamb, Twinkle Twinkle Little Star

Videos – Animation

Creatures, Explosions, EyeCandy, People, Space, Spinning, Terrains, Water Scenes

Videos – Movies

Animals, Sports, Transportation, Water, Weather
